

Task 3

Test	Output	solution
<ul style="list-style-type: none">• Help video playing• Website tabs go to right page	<ul style="list-style-type: none">• Works on most browsers except Opera due to imbedded security measures• No issue	<ul style="list-style-type: none">• Warning still needs to be put as pop to warn opera users why the video is not playing

Validation

Validation was done using validator.w3.org where thankfully most problems were related to extra and unnecessary groupings, or undesirable naming conventions and so were easy to fix with no issue.

Improvements

In terms of improving the website, the first thing should be to make the general UI more appealing with a less rigid navigation bar and using gradients instead of just a solid colour. A pop-up message signifying that the order has been successful would also be very helpful for the client.
